

MINNESOTA ELDER JUSTICE CENTER

The Minnesota Elder Justice Center serves the state of Minnesota by providing support to older or vulnerable victims and their families, along with professional education and assistance, and public awareness.

Reporting Suspected Elder Abuse, Neglect and Financial Exploitation

Reporting can sometimes be a difficult decision. Someone might wonder if making a report is really the right thing to do, especially if they don't think they have enough information or if the elder is adamant that the authorities should not be involved. Some individuals and professionals may be mandated to report suspected abuse, neglect or exploitation.

To make a report of suspected elder or vulnerable adult abuse, you do not have to know everything about the situation. Have the following information ready:

- Name, age and address of the potential victim
- Brief description of the situation
- Any evidence of previous maltreatment
- Your name and contact information
- Explain how you know about the situation, your relationship to the elder or vulnerable adult
- Name and address of alleged perpetrator
- Location of the incident(s)
- Current injuries, medical problems, or behavioral problems
- Names of relatives or concerned parties in or outside the home
